Primary: rwajar@gmail.com | **Gov:** Riaz.Wajar@Durban.gov.za

PROFESSIONAL SUMMARY

Solutions-oriented Technical Professional with 30 years of experience in systems logic, process automation, and infrastructure governance. Expert in architecting **custom VBA automation suites** to streamline complex data workflows and currently migrating deep operational logic into **Modern Web Technologies (HTML5/CSS3)** and **Oracle Cloud Infrastructure (OCI)**. A disciplined "Systems Thinker" focused on delivering robust, documented, and audit-proof digital solutions.

Developer Profile: Fully established remote development environment with dual-monitor setup and high-speed fibre. Actively migrating legacy logic to **GitHub** and architecting Cloud solutions across OCI Regions and Availability Domains.

TECHNICAL STACK

- **Languages & Scripting:** VBA (Expert/Automation), HTML5/CSS3 (Intermediate), C++ (Foundational).
- **Cloud & Infrastructure:** Oracle Cloud Infrastructure (OCI), IAM Policies, Tenancy Management.
- **Data & Automation:** Workflow Automation, Macros Development, Database Logic, SQL (Foundational).
- **Developer Tools:** VS Code, MS Excel (Power User), GitHub (In-Progress), Protel CAD.

PROFESSIONAL EXPERIENCE

ETHEKWINI MUNICIPALITY (Governance Cluster) | Durban, KZN

Technical Controller / Solutions Lead | **July 2006 – Present**

- **Systems Logic & Governance:** Architected and maintained the technical infrastructure for the City Hall Complex, ensuring 100% uptime for mission-critical administrative systems.
- **Workflow Automation:** Identified operational bottlenecks and engineered technical solutions to automate stakeholder reporting and facility logistics.
- **Project Leadership:** Managed high-budget infrastructure upgrades, serving as the technical architect between executive requirements and physical digital implementation.

TELKOM SA | Durban, KZN

Technical Officer (Automation & Field Coordination) | **2001 – 2004**

- **Software Development (VBA):** Designed and deployed a custom **VBA automation suite** to manage massive data entry for Main Distribution Frames (MDF).
- **Impact:** Eliminated human error in critical data logging and significantly reduced manual reporting cycles through automated logic.
- **Systems Integration:** Coordinated large-scale technical deployments, ensuring data integrity across field and management platforms.

NORTECH INTERNATIONAL | Pietermaritzburg, KZN
Production Assistant to Engineer | **2004 – 2006**

- **Logic & Fault Analysis:** Utilized **C++ (Borland Builder)** and **Protel CAD** for technical design and high-level fault analysis.
- **Efficiency Engineering:** Optimized production line logic, achieving 100% efficiency ratings through rigorous testing and debugging.

EDUCATION & DEVELOPER TRAINING

- **National Diploma: Electrical Engineering (L/C)** – ML Sultan Technikon (1999)
- **TEFL Certification (Teaching English as a Foreign Language)** – (2023)
- **Introduction to HTML & CSS** – (2025)
- **OCI Business Jumpstart** – Oracle Cloud Infrastructure (2025)
- **OCI Foundations Associate** – (In Progress, Completion May 2026)

KEY TECHNICAL PROJECTS

- **VBA Data Suite (In-Progress):** Developed a comprehensive data-management tool that synchronized real-time field feedback with senior management reporting systems.
- **Cloud Infrastructure Design (In-Progress):** Currently architecting secure OCI tenancies focusing on **Identity and Access Management (IAM)** and regional data sovereignty.
- **Web Portfolio (In-Progress):** Developing a personal professional showcase using HTML5/CSS3 to host technical documentation and project code.

KEY DEVELOPER SKILLS

- **Technical & Logic:** System Architecture, Database Automation, Fault Analysis & Debugging, Data Integrity, IAM Security Policies.
- **Professional:** Technical Documentation (Audit-Ready), Agile Project Management, Strategic Problem Solving, Business Operations Logic.
